26 FEBRUARY - 3 MARCH 2019 GEELONG AUSTRALIA www.airshow.com.au

Australian Space Industry Conference 2019 – February 25 - 26

Space Means Business!

AVALON 2019 organiser Aerospace Australia Limited and the Space Industry Association of Australia have joined forces to launch the inaugural two-day Australian Space Industry Conference.

Join a constellation of space industry, R&D and Government speakers presenting on issues for the space industry and the space-enabled industries it will support, focusing on opportunities for business development.

Conference Program Covering:

- Australia's Space Agency
- Capabilities, projects, activities
- Space launch developments
- Satellite design and applications
- Unmanned in-orbit servicing
- Earth Observation and Surveillance
- Space based services
- Cyber and Physical Security
- Space Traffic Management

DAY 1 - Plenary session in Melbourne City venue.

DAY 2 - Conference Centre session at **AVALON 2019** Australian International Airshow and Aerospace & Defence Exposition, Avalon Airport.

A growing industry....

A\$434 Billion

Global Space industry value - 2016

13.7%

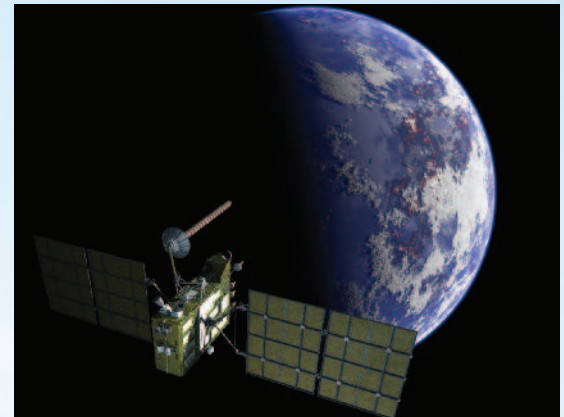

Global industry annual growth since 1998

A\$4 Billion

Australian Space Industry Annual Value

132%

Projected Australian Industry Growth

Reach for the sky – and shoot for the stars!

Australia's Space Heritage....

Australia has a long history of involvement in space.

- Third country after the USA and USSR to launch a satellite from its own soil (WRESAT 1967)
- Deep space communication and tracking for NASA Apollo missions in the 1960s
- Woomera Test Range rocket test and hypersonic flight research

Australia's Space Future....

Australian organisations now provide many components and subsystems for US and European space programs. The Australian space industry is an acknowledged pioneer in fields such as:

- Plasma thrusters
- Satellite communications
- Hypersonic flight
- CubeSat development
- In-orbit testing

Australian Space Industry Conference delegates will be part of the **AVALON 2019** Australian International Airshow and Aerospace & Defence Exposition, with more than 30,000 aerospace and defence trade visitors, major prime contractors and specialist SMEs, alongside more than 13 significant academic conferences, seminars and briefings addressing aerospace, avionics, propulsion, unmanned systems, maintenance and flight safety.

AVALON 2019 will include a dedicated Space Industry Precinct within the Exhibition Hall, providing a showcase for space-related business and a focal point for industry, start-ups, academia and research organisations.

Reaching for the stars growing Australia's space economy

Space Means Business!

MONDAY FEBRUARY 25

Opening plenary session in Melbourne City.

TUESDAY FEBRUARY 26

AVALON 2019 Conference Centre, Avalon Airport.

Conference registration includes free entry to AVALON 2019 on that day.

Entry to the Day 2 session at Avalon is free to all accredited Trade Visitors.
