JOINING SIAA

WHO ARE WE?

The Space Industry Association of Australia (SIAA) is a nationwide organisation formed to promote the growth of the Australian space sector. By formulating national policies and strategies, SIAA speaks with authority and credibility on behalf of its members on issues connected with the development of the Australian space industry.

SIAA successfully hosted the 2017 International Astronautical Congress in Adelaide, which catalysed the formation of the Australian Space Agency.

WHY MEMBERS JOIN

SIAA members join the association to raise their profile, build their networks, expand their engagement with decision makers, and receive access to the latest industry information, insights, and opportunities.

Corporate members are actively promoted by SIAA and have access to the SIAA logo to acknowledge their leadership role in our industry. SIAA members are able to join SIAA policy committees to shape industry policy, to be appointed to the SIAA Advisory Council, and to stand for election as a director on the SIAA board. SIAA members are offered the opportunity to attend private industry briefings.

All memberships include access to the Southern Space Symposium (2021 Symposium tickets were \$750 ex GST) as well as member-only events throughout the year.

“

We provide the industry's voice to the media, public, and government and achieve tangible results for the industry through our advocacy.

”

JAMES BROWN
CHIEF EXECUTIVE OFFICER
